

## Lemon Extract Booze Fighter, Maybe Funeral

Washington, D. C., July 24.—Prohibition commissioners are putting on a big drive to suppress the illicit trade in flavored extracts and other liquids of high alcoholic content being sold in vast quantities to people who are determined to get an intoxicating drink even if they have to poison themselves.

Commissioner Kramer has issued orders to all law enforcement officers to stamp out this flourishing trade, wherever found. Along with the flavored extract trade a flourishing business has been built up in all sorts of patent medicines and alleged "health tonics" whose chief merit is that a few swigs of the potent stuff will produce a jag.

Physicians declare that the effects of the use of such stimulants in those forms exert a harmful effect on the human system, and the reaction on the heart and nerves is appalling. Taken in overdoses, death often results.

Commissioner Kramer is also going after this evil at its source. He will ask congress to pass laws which will strictly regulate manufacture of such extracts, tonics, and medicines. It is not proposed to interfere with legitimate patent medicines and the manufacture of the preparation of proprietary articles that are actually used as medicines, but the illicit traffic will be stamped out if Kramer can induce congress to pass the necessary legislation.

Have you realized that you can cure

## ECZEMA

Psoriasis, Army Itch, Sand Itch, Crotch Itch, Barbers Itch, Poison Ivy or any poisoned skin no matter how long you have suffered. RU-BON will cure your skin. If your skin is rough, RU-BON will make it smooth. RU-BON is a skin naturalizer. It will cleanse and heal by removing all poisonous substances. It makes your skin natural. You never found a cure for Psoriasis. RU-BON will clean your skin of every spot. You know many people that have suffered with big sores RU-BON will cure and not leave a scar. For sores and pimples use No. 2 RU-BON. You can use four or five coats of RU-BON Ointment for PILES. If it does not reduce or remove the hemorrhoids dilate and heal the rectum you get your money back. To find the most cases possible we offered for \$100 reward if could find case of skin trouble that could not be cured with RU-BON. It is nice and pleasant to use. If troubled with psoriasis wash the gums with No. 3 RU-BON. It dissolves the acid and heals the gums. Cordell Drug Co., successors to Kelly, Ballard Drug Co., special distributors. Sold by all wholesale druggists. RU-BON Chemical Company, Kansas City, Mo.—Adv.

## Cox Drilling Is To Resume; Columbus Stops

Work on the W. W. Cox oil well in the Tucuman basin is to be resumed in a short time. An agreement has been reached between Mr. Cox, who is in the city today, and W. H. Duncan, of Oklahoma, for the continuation of the work. Mr. Duncan and wife, who is a sister of Mrs. G. A. Martin, are at Hotel St. Regis.

Mr. Duncan completes the contract. He will have associated with him his father, Mr. Duncan and his father, C. W. Duncan, brought in the first wells in the Tucuman basin. Both have had oil well experience from Pennsylvania down to Oklahoma and know the oil game thoroughly.

W. H. Duncan has been for the past two months in charge of the drilling operations at Columbus, N. M., but these have been closed down. He was doing the drilling work for Kniffin & Whitford, of Chicago, but, owing to failure to secure sufficient acreage to warrant them in continuing the work, they stopped operations and turned the well back to the Valley Oil company at Columbus and that company has not resumed operations.

The Cox well is now down to a depth of 400 feet and is in the quicksand. Mr. Duncan says the rig at the well is one of the best in the country and that he will be in position to resume operations in a very short time.

## EQUIPMENT ARRIVES FOR OIL REFINERY AT TOYAH

Toyah, Texas, July 24.—Toyah is to have a refinery. It will be a small one, but large enough to handle the immediate production of the wells now completed in the shallow field. Machinery has arrived for the plant being built for J. M. Knight, of the Panhandle Electric Light and Power company, of this city. It will be set up as rapidly as possible and it is hoped the assembled plant will be ready to receive its first consignment of crude oil in a few days.

Mr. Knight conceived the idea of erecting a small plant in which the product of the wells of the shallow belt could be prepared for market, shortly after he arrived in Toyah last year. He has since acquired knowledge of the oil to laboratories and refineries all over the country in order to get a line on its properties so that he might have all available knowledge regarding it to the aid of his proposed plant might be suited to the needs of the oil. He also conducted many experiments on his own account. The net result of his investigations was that he placed an order for the vast stills, coils and other parts needed for a complete refinery with which he will treat the raw "Toyah" oil and make it ready for the market.

## BALLENTINE'S NEWEST WELL TO BE SHOT AT ONCE

Eastland, Tex., July 24.—The six and five-eighths inch casing is being set in the Ballentine Oil cooperation's No. 1 well in the Deadwood district at a depth of 2000 feet. The well will be drilled in at once. Excellent showings have been found in the Ajax-Hercules No. 3 well. Well preparations are being made to shoot the Caddo line at once. On this same tract the Southwest Oil and Development company is

## OPHELIA

making salt water at the 2665-foot level.

Showings have been found in the Green No. 1 of the Baku Consolidated Oil company. This well is in the Gun-ship district with the drill in the Caddo line at 3192 feet. It will be shot at once.

## GOOD PROSPECTS FOR OIL IN RISING STAR REGION

Rising Star, Tex., July 24.—The prospects of a 2000-barrel oil gusher in the Rising Star district has encouraged many operators to enter the new field. The promising well is the Hunt No. 1 of Pete Hoffman, six miles north of town. It is half a mile north of the discovery well. It will be completed at once. Offsetting the above well is the Shock No. 2, which is expected in almost any moment. Promising showings have been found in this test. Prices of leases are steadily rising.

## TO DRILL FOR OIL IN PECOS VALLEY AT BUCHANAN

Roswell, N. M., July 24.—The National Exploration company is moving timber and machinery to Buchanan, northwest of this city. Near Buchanan this company plans to drill well No. 5. It is said that the structure in this section has been passed on most favorably by a number of prominent geologists. When this well is started the National Exploration company will have five deep tests in operation in eastern New Mexico.

## A Line O' Cheer Each Day O' The Year

By JOHN KENDRICK HANCO.

TIME is a restless chap, speeding along his way, Fanning for never a nap either by night or day. Carrying fame and health, carrying woes or waste, Feverish dire or wealth—something for every taste. Seize him or not. He cares naught which it is you do. Onward he swiftly fares, leaving it up to you. Whether you win or lose, whether you take your fill—That is for you to choose either for good or ill.

## AS TO DOUBT.

BECAUSE thou hast a doubt, my friend, Yield not the road unto thine and, But plod away, and hold thy soul True to thy self-appointed goal.

Doubts are but pitfalls on thy way To lure thee from thy path astray, And, when they've done their worst, when they've found them, Have climbed above, or sped around them.

—Copyright, 1920, by the McClure Newspaper Syndicate.

For the first time in the history of the United States navy the Stars and Stripes were hoisted recently by a girl, when Miss Maybey Oakes, of Tennessee, performed the ceremony on the occasion of the commissioning of the United States battleship Tennessee at the Brooklyn navy yard.

## A Reduction Suggestion By EDNA KENT FORBES

THE hardest thing about reducing is overcoming the gnawing pang of hunger the first few days of the new regime. It is here that the weather-wilted sisters fall—for sometimes, to be perfectly frank, the stomach keeps up its demands for quantities of food for weeks after a reduction diet is decided upon.

But, of course, if a woman persists to go on growing larger and larger, and feeling more and more uncomfortable in her clothes, and being restricted in her freedom of motion—all because she cannot tolerate a few days' or a few weeks' discomfort—well, in that case, I can have nothing further to say. My suggestion today is not for that woman—it is for the woman who is going to reduce, and is going to stick at it until she is as young and slender and graceful as she desires to be.

The suggestion is—when you feel this gnawing hunger, drink something. Drink a glass of cool water, or a glass of hot water with a little pinch of soda or salt in it. Or drink a wingglass of sassafras tea, three times a day; this satisfies some of the craving for food. Or, if it is morning or if you are not nervous, take a small cup of black coffee, or a cup of weak tea with lemon and without sugar. All these things help because they give the stomach something to do—and they do not nourish. Of course, while reducing, you are not permitted anything to drink at meals, but between meals you can drink almost as much as you like.

If you suffer from gout or rheumatism, you can drink a glass of hot water with a little bicarbonate of soda in it, and be greatly benefited. It will be even better if you alternate and take water with a tablespoonful of lime juice in it between meals, especially when the desire for food is strongest.

Tilly—Don't feel badly because the boys do not like you. Of course, neither I nor anyone else can tell you exactly how to become popular—that lies with yourself. Be sweet and natural and charming, and above all, be sympathetic. If there is any secret in popularity, it is that—sympathy. Do you understand what I mean by it? You must like other people a lot, you must understand them, you must be in sympathy with what they are doing and what they are striving for. This is not a definition, but perhaps from this you can see what I mean.

## PANHANDLE FARMERS TO LOSE HEAVILY UNLESS CARS HAD

Amartillo, Tex., July 24.—Unless farmers in the Panhandle district are able to secure the cooperation of the interstate commerce commission and railroad heads in obtaining from 12,000 to 15,000 cars, which will be necessary to move the wheat crop, farmers will sustain heavy losses during the next few weeks, according to the Panhandle Plains chamber of commerce.

Harvest hands are now in the fields, and present indications are that the 1920 crop will be almost as great as the crop of last year, of which 2,000,000 worth is still in the country, farmers being unable to obtain cars to carry their wheat to market, the statement said.

Relief has been promised and should the promises be carried out the Panhandle section of Texas will within the next 30 days ship more than 20,000,000 bushels of wheat.

## SPELLACY NOT WILLING

Washington, D. C., July 24.—Thomas J. Spellacy of Hartford, Conn., who is understood to have been selected to succeed Franklin D. Roosevelt as assistant secretary of the navy when the latter retires next month to make room for the Democratic vice-presidential candidate, said yesterday he had not been offered the post and would not accept it if it were offered.
